

BIRTHRIGHT SUNSHINE BLOOMS

This pandemic has created so much isolation that the officers of St. Charles Friends of Birthright thought it might be fun to host a new fundraiser which we hope will allow us to do something nice for others and support our great cause at the same time. So, we'll be putting together small bouquets of fresh daisies and carnations (Birthright Sunshine Blooms) for you to give to friends, relatives, essential workers, nursing home residents, or anyone you'd like to remember. The bouquets will be attractively-wrapped, with a pick and note card which reads:

TO: (You fill in the addressee)

“In all these months of Covid, it's made me very sad
To think about the laughs we really should have had.
I think about you often; it's always on my mind,
How much we've missed, as caution occupied our time.
It's been so long since Covid has kept us all apart,
I'd like to share these blooms directly from my heart.”
Hugs,
(Your signature or note)

We'll be taking orders for the Birthright Sunshine Blooms which will be delivered to your home so you can address and deliver them personally to the recipients of your choice. (We will try to accommodate anyone without transportation by delivering the bouquets to your recipients in this area.)

We'll need an accurate count in advance so we can get the supplies ordered. We're keeping the price at \$10 per bouquet, low enough that we're hoping you'll order several to spread some winter cheer. The bouquets will stay pretty for quite a few days after delivery, allowing you time to distribute them to your friends.

There are two ways to order -- 1) by replying to this e-mail (not to all, please), with the information below. These orders may be paid for by cash or check on the day of delivery, or 2) by clicking on the link below to access OneCause and pay in advance by credit card. All orders must be placed by February 12th. The bouquets will be delivered to you on Saturday, February 27th.
